

Our Daily Schedule - 4K

This is a tentative schedule for our class and will be adjusted to the needs of the particular group of children. Times are approximate.

Arrival Teacher greets children and parents. Children will explore some of the teacher-directed activities before we gather for Circle Time.

Circle Time This is our opportunity to discuss the theme of the day, update the calendar, and allow the Special Star to share. A story will be shared at this time and we will also review our "letter of the week."

Free Choice Time The children will explore the various learning centers in the classroom. Art projects will also be done at this time.

Worship Time The Bible story will be introduced. We will also sing and pray our special prayers together.

Rest/Snack Time A short rest time (to allow time for teacher to set-up snack) followed by a wonderful time to socialize as children enjoy their milk and snack.

Large Motor Time We will usually go outdoors and play on the playground. We will also have an opportunity to get our bodies moving in the gym or the Friary.

Discovery Time This is the time when we will be practicing many of our math, science, and language arts concepts. Experiments and cooking projects will also take place at this time. These will be whole-group activities or small group activities.

Closing We will gather in the circle area and sing, do a finger play, read another story, review the day's activities and say our good-byes and pray.
